Hi Susan,

It sounds like FEAD doesn't have a general mailing list. Should we go with the PPDC and other foreign ag service people list that I have? Thanks, Diane

Good morning! CSB does not maintain a mailing list. The list of people we send our OPP Updates via GovDelivery are people that have signed up through GovDelivery to receive these. Now, from time to time we do put together specific lists of people such as for WPS. I will reach out to Dan Helfgott's and Kevin K's people to see if they may have distribution lists to share. Diane, I'll let you know as soon as I can.

Importance: High

Hi Becky, could you double check our stakeholder list to see if there are others that should be included for Diane's mail out?

Thanks!

Hi Anne,

RD is getting ready to email workplans and a Regulatory Partnership Statement for the US-Canada Regulatory Cooperation Council. I have copied the mailing list that we are considering using; however, I wanted to check with you to see if you have another list that we should use. This one the PPDC list and I have added others that we have worked with on international activities.

Please let me know if you think this mailing list is ok or if we need to include others. Thanks, Diane
